Contents Volume 56, 1988

A farewell to Wilhelm Klaus
O. Cichocki, J. Nebelsick and R. Zetter (Wien, Austria) 1
Dinoflagellate cysts from the Cretaceous/Tertiary boundary sequence of El Kef, northwest Tunisia
H. Brinkhuis and H. Leereveld (Utrecht, The Netherlands) 5
Palynological evidence for Jurassic microplankton provinces in Great Britain
R. Porter (Manchester, U.K.) 21
Chitinozoan and acritarch assemblages, stratigraphy and biogeography of the Early Palaeozoic of Northwest Arabia
H.A. McClure (Dhahran, Saudi Arabia) 41
New data on palynological boundaries within the Irish Dinantian
K.T. Higgs (Cork, Ireland), B. McPhilemy (Dublin, Ireland), J.B. Keegan (Aberdeen, Scotland) and G. Clayton (Dublin, Ireland) 61
The palynostratigraphy of two uppermost Devonian–Lower Carboniferous borehole sections in South Wales
A. McNestry (Dublin, Ireland) 69
Fossil ascospores of the parasitic fungus *Ustulina deusta* in Eemian deposits in Denmark
B. van Geel (Amsterdam, The Netherlands) and S.T. Andersen (Copenhagen, Denmark) 89
Cyst–theca relationships in the diplosalid group (Peridiniales, Dinophyceae)
K. Matsuoka (Nagasaki, Japan) 95
Effects of chemical processing on the preservation of peridinioid dinoflagellates: a case from the Late Cretaceous of NE Africa
E. Schrank (Berlin, F.R.G.) 123
Early Tertiary *Lomatia* (Proteaceae) macrofossils from Tasmania, Australia
R.J. Carpenter and R.S. Hill (Hobart, Tas., Australia) 141
Paleoecology of the Middle Pennsylvanian-age Herrin Coal swamp (Illinois) near a contemporaneous river system, the Walshville paleochannel
W.A. DiMichele (Washington, D.C., U.S.A.) and T.L. Phillips (Urbana, IL, U.S.A.) 151
Presence of land-plants on a volcanic island in a Devonian Sea (Rhenish Mountains, West Germany)
H. Flick, H.W. Pfefferkorn and J. Schmidt (Heidelberg, F.R.G.) 177
Lower Pliocene petrified wood from the Palm Spring Formation, Anza Borrego Desert State Park, California
P. Remeika (Borrego Springs, CA, U.S.A.), I.W. Fischbein (Boston, MA, U.S.A.) and S.A. Fischbein (Hayward, CA, U.S.A.) 183
A reinterpretation of the Paleozoic fern *Norwoodia angustum*
C.W. Good (Lima, OH, U.S.A.) and G.W. Rothwell (Athens, OH, U.S.A.) 199
Dryophyllum Debey ex Saporta, juglandaceous not fagaceous
J.H. Jones, S.R. Manchester and D.L. Dilcher (Bloomington, IN, U.S.A.) 205
A palaeoecological study of a hummock–hollow complex from Engbertsdijksveen, in The Netherlands
P.C. van der Molen and S.P. Hoekstra (Amsterdam, The Netherlands) 213
Bathonian to Early Oxfordian dinoflagellate cysts and acritarchs from Kong Karls Land, Svalbard
M. Smelror (Trondheim, Norway) 275
Ordovician spores with trilete rays from Washington Land, North Greenland
H. Nøhr-Hansen and E.B. Koppelhus (Copenhagen, Denmark) 305
The Oxfordian-Kimmeridgian stage boundary (Upper Jurassic): dinoflagellate cyst assemblages from the Harome Borehole, North Yorkshire, England
J.E. Thomas and B.M. Cox (Nottingham, England) 313
A modified dinoflagellate cyst biozonation for latest Palaeocene and earliest Eocene sediments from the central North Sea
A.J. Powell (Sunbury-on-Thames, U.K.) 327
The value of fluorescence microscopy in routine palynofacies analysis: Lower Carboniferous successions from counties Armagh and Roscommon, Ireland
B. McPhilemy (Dublin, Ireland) 345
Modelling Holocene changes in beech populations: a reply to Dexter et al. (1987)
K.D. Bennett (Cambridge, U.K.) 361
Response to Bennett's reply concerning the modelling of Holocene changes in beech populations
T. Webb III (Providence, RI, U.S.A.) 362
